

# Programs with Multiple Contracts - Mapping

5/14/2018

1

Individual presents for services

2

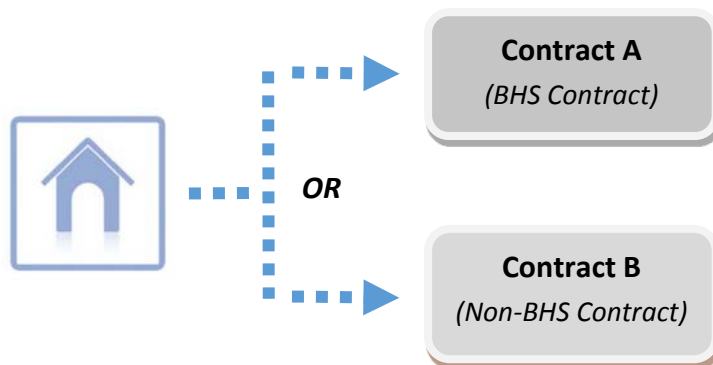

Programs that have multiple contracts for the program must determine which contract is best suited to serve the individual

*NOTE: Mapping does not apply for programs that contract exclusively with Behavioral Health Services (BHS)*

## Programs consideration for determining contract mapping include but are not limited to:

- ✓ Referring party & reporting requirements
- ✓ Individual's eligibility & funding source
- ✓ Individual's programmatic needs as each contract may offer different program elements

- ✓ Once an individual is enrolled under a particular contract they continue services under that contract
- ✓ If program expects that an individual would benefit from shifting to the BHS contract, BHS COR consultation to occur
