Overview

Access and Eligibility for Services

County of San Diego (County) funded behavioral health services are intended for children and youth who are either experiencing a behavioral health crisis (such as depression, suicidal thoughts, extreme anxiety, or substance use) or who require behavioral health services in order to function in school, at home, or in the community. Generally, services are available for Medi-Cal beneficiaries and low-income children and youth, up to age 21. All services are rendered without regard to race, color, creed, or disability. Individuals and professionals can directly contact any of the resources listed in this directory. However, it should be noted that, in some cases, access to services is managed through specific procedures and may be designed for certain special populations. Where possible, this information has been included in this directory. If in doubt about eligibility or how to access services, please contact the Access and Crisis Line at (888) 724-7240.

Access to Language Services

Clients have a right to free language assistance in a language they understand. Clients shall be provided interpreter services as a part of their therapeutic services. However, clients have the option to use a family member or a friend as their interpreter. The client is not expected to provide their own interpreter. All Behavioral Health Services (BHS) programs have access to interpreter services.

Fees and Funding

Behavioral health services provided through the County are financed through Medi-Cal, the Mental Health Services Act (MHSA), patient fees (when applicable), private insurers, County-general funds, State funds, and specialized grants. In most instances, fees for services are fully covered for full scope Medi-Cal beneficiaries and unfunded individuals. When applicable, fees for services are based on income and the number of family members in the home. This Uniform Method for Determining Ability to Pay (UMDAP) is mandated by the State. Medi-Cal, Medicare, and other insurance coverage will be considered in determining an individual's monthly payment. *No person who otherwise qualifies for services will be turned away.*

Organizational Providers & Fee for Service Network

Organizational providers serve children and youth through a network of comprehensive programming and multidisciplinary clinical teams. The Fee-for-Service network is comprised of individual practitioners who primarily offer office-based and/or telehealth services. Both networks can be accessed through the Access and Crisis Line (ACL) by calling (888) 724-7240.

Medi-Cal Managed Care Health Plans

Medi-Cal Managed Care Health Plans cover behavioral health services for members who do not qualify for Medi-Cal Specialty Mental Health Services covered by the County. Each Medi-Cal Managed Care Health Plan has its own network of contracted behavioral health providers. Medi-Cal beneficiaries may contact their health plan directly.

Juvenile Justice - Specialty Programs

Juvenile Justice - Specialty Programs

BHS, the Probation Department, the courts, and other justice partners coordinate services to ensure that youth who have behavioral health needs receive services from a wide range of services and support within the Children's System of Care. Behavioral health services are available to youth who are in Probation detention facilities as well as to youth upon release from a juvenile facility to assist with their transition back to the community.

See the Teen Recovery Center (TRC) section, as well as the Residential section, for mental health and substance use disorder programming.

County Operated Programs

County Operated Programs

These include three programs with licensed clinical behavioral health teams:

Continuum of Care Reform (CCR)

The CCR Team provides oversight and accountability of the BHS components of CCR in San Diego County, including assisting group homes in transitioning into Short-Term Residential Therapeutic Programs (STRTPs), attendance at Interagency Placement Committee (IPC) meetings, and other joint collaboration within the implementation of CCR across BHS, Child Welfare Services (CWS), and the Department of Probation (Probation).

Pathways to Well-Being (Pathways)

The Pathways Team provides ongoing technical assistance through on-site and virtual program outreach to BHS-contracted mental health treatment providers to ensure that youth who have more intensive needs and/or whose treatment require cross agency collaboration have an identified Child and Family Team (CFT) and receive Intensive Care Coordination (ICC), and if recommended and agreed upon by the CFT, Intensive Home-Based Services (IHBS). BHS, CWS, Probation, and family and youth partners have worked collaboratively to develop a shared vision to meet the Katie A. settlement requirements and expansion of services outlined in the California Medi-Cal Manual for ICC, IHBS, and Therapeutic Foster Care (TFC) Services for Medi-Cal Beneficiaries:

Juvenile Forensics Services STAT

Provides psychological and psychiatric services to the youth residing within the juvenile detention facilities. These services may include counseling, assessment, crisis intervention, psychiatric medication management, and transition-to-community related assistance. In addition, Juvenile Forensic Services provides assistance to Juvenile Probation, Juvenile Court and Child Welfare Services by way of expert consultation regarding mental health issues, mental competency screenings, and by providing other mental health evaluations for youth. The Juvenile Forensic Services are provided by the BHS Stabilization, Treatment, Assessment and Transition Team (STAT) at the following Probation detention facilities:

- Kearny Mesa Juvenile Hall
- East Mesa Juvenile Hall
- Urban camp
- Healing Opportunities for Personal Empowerment (HOPE)

BHS and Probation have collaborated on the design for a new intensive treatment program for in-custody youth that began in July of 2021. The HOPE program supports the juvenile justice system's transition to a positive youth development model while also focusing on the interrelated triad of treatment needs typical of youth who are in custody and provides evidence-based and evidence-informed treatments for mental health, substance abuse, and criminogenic behavior.

Child Welfare Services - Specialty Programs

Child Welfare Services (CWS) - Specialty Programs

Includes programs specializing in the treatment of youth involved in the child welfare system. The entire CYF network of services is available to CWS youth, but these programs were designed with consideration of the complex needs of youth involved in CWS, who may be placed in foster care, seeking reunification with biological family members, or a caregiver working towards case plan goals with a CWS worker. These programs are also found in other corresponding sections. STRTPs are on pgs. 10-11.

Fee for Service (FFS) Network

Fee-for-Service (FFS) Network

The County of San Diego FFS Network is a group of providers licensed independently to provide mental health treatment services in private practice settings to Medi-Cal beneficiaries. Optum Public Sector San Diego is the Administrative Services Organization that manages the FFS Network. The [Fee for Service Provider Directory](#) lists available providers and services offered by the County of San Diego through the FFS Network.
