

Cerner Job Aid: COVID-19 Dashboard

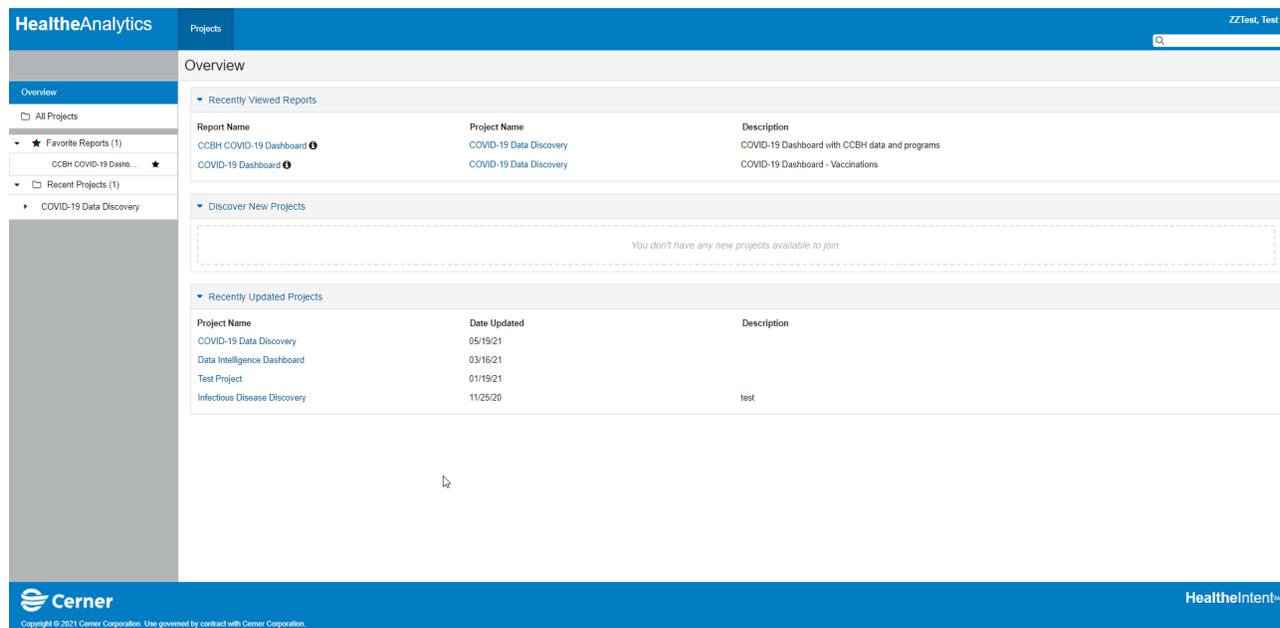

To access HealthIntent, please navigate to <https://sdcounty.analytics.healthintent.com/> and enter your Cerner Millennium credentials. If you do not have a Cerner Millennium account, you may request access by completing this form: [COVID Dashboard: Access Request Form \(smartsheet.com\)](#).

The login form is a blue rectangular box with the Cerner logo at the top. It contains three input fields for 'Username', 'Password', and a field containing 'P1949'. Below the fields is a checkbox for 'Remember Username' and two buttons: 'Cancel' and 'Log In'.

After entering your credentials and logging in, you will be taken to the HealthAnalytics landing page. Please note that your landing page may be slightly different depending on your user access, as well as the projects you are associated to.

The screenshot shows the HealthAnalytics interface. On the left is a navigation sidebar with 'Overview' selected. The main area is titled 'Overview' and contains three sections: 'Recently Viewed Reports', 'Discover New Projects', and 'Recently Updated Projects'. The 'Recently Updated Projects' section contains a table with the following data:

Project Name	Date Updated	Description
COVID-19 Data Discovery	05/19/21	
Data Intelligence Dashboard	03/16/21	
Test Project	01/19/21	
Infectious Disease Discovery	11/25/20	test

ATTENTION:

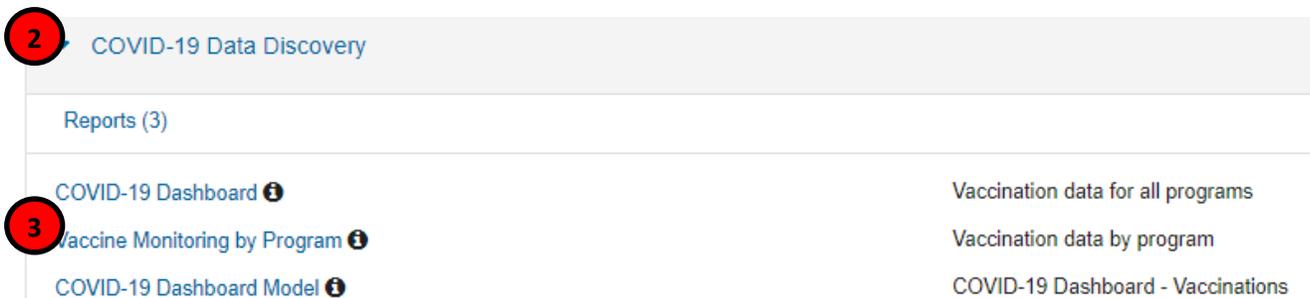

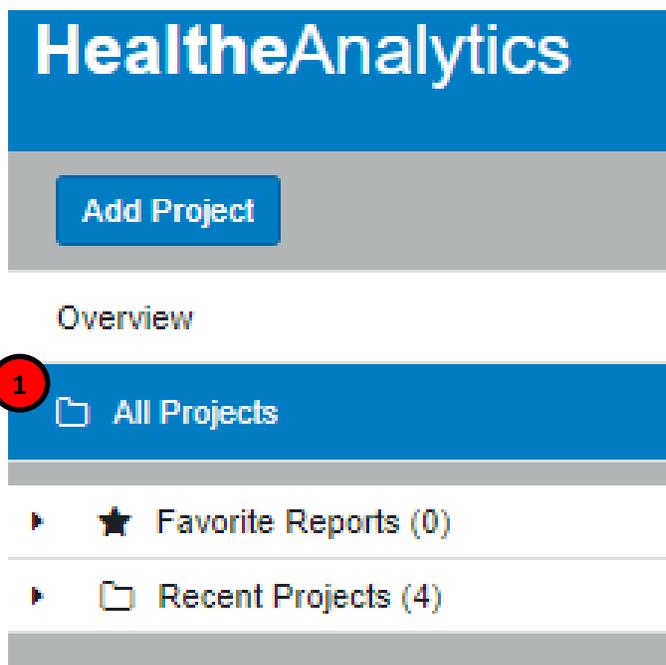

Cerner Job Aid: COVID-19 Dashboard

A Vaccine Monitoring by Program Dashboard has been developed for outreach to clients. This Dashboard is formatted to show Fully Vaccinated, Partially Vaccinated, and Not Vaccinated clients, and is limited to the user's assigned program. This data is pulled from the San Diego Immunization Registry records.

1. To access the dashboard, select **All Projects** in the left hand menu.
2. Expand the **COVID-19 Data Discovery** project.
3. Select the **Vaccine Monitoring by Program** report under the **Reports** tab to open the dashboard.

Your program name will be listed in the dropdown menu below. If you are not assigned a program in HealthIntent, **(None)** will be displayed. If you are assigned more than one program, you may select a different program by expanding the dropdown and selecting a different program. You may also select and filter by Subunit for the selected program.

COVID-19 Vaccine Monitoring by Program

Unit	Subunit
<input type="text" value="My Assigned Program"/>	<input type="text" value="(All)"/>
<input type="text" value="My Assigned Program"/>	

Last updated date: 9/27/2021

Frequently Asked Questions

- ◆ **Why do I not see the COVID-19 Data Discovery Project?**
 - ◇ In order to view the project, you need to be added to the project. Please reach out to bhsdatasystems.hhsa@sdcounty.ca.gov for assistance.
- ◆ **Where is the data coming from?**
 - ◇ The data is pulled from the San Diego Immunization Registry records. If vaccination data is not recorded in SDIR, then the client's vaccination data will not be displayed.
- ◆ **What clients are pulling into the dashboard?**
 - ◇ Client information is pulled from CCBH and SanWITS, and only pulls in patients that meet the following conditions: Age \geq 16 years, alive, and have an open non-voided assignment (CCBH only).
- ◆ **When is a client considered fully vaccinated?**
 - ◇ A client is considered fully vaccinated when they've received 2 doses for both Pfizer and Moderna or have received 1 dose of Janssen, and are 2 weeks past their final dose date.
- ◆ **When is a client considered overdue?**
 - ◇ A client is considered overdue if it has been 21 days or more since their first Pfizer dose, or it has been 28 days or more since their first Moderna dose.
- ◆ **Why am I not seeing my program data?**
 - ◇ To see your program data, you need to be assigned to your program in the dashboard. Please fill out this form to request program assignment.
- ◆ **How can I print out the dashboard?**
 - ◇ The dashboard can be downloaded by selecting the  **Download** button in the top right corner of the dashboard. Options include:
 1. Image—A **.png** file of the current view will be downloaded
 2. Crosstab—After selecting the view to download, a **.csv** file of the summary data will be downloaded
 3. PDF—After selecting the view(s) to download, a **.pdf** file will be downloaded of the selected views
 4. PowerPoint—After selecting the view(s) to download, a **.pptx** file will be downloaded with each selected view as its own slide, as well as a title page slide
